**Software  
Engineer**

**Nuvalence**  
2022-2023  
**Software  
Engineer**

**Mainline**  
2021-2022  
**Frontend  
Developer**

**Citi**  
2018-2021  
**Frontend  
a11y Dev**

**Exigo**  
2015-2016  
**Junior  
Developer**

## Projects & Experience

- Served as an accessibility-focused frontend developer, remediating usability barriers across enterprise web applications.
- Migrated legacy JSP and AngularJS applications to modern Angular frameworks, enabling adoption of modern tooling.
- Designed a reusable form-generation framework that accelerated content deployment and reduced development effort.
- Led the design and initiative of a company-wide design system to maintain consistency and to speed up development time.
- Created a transcription application that utilized Web Audio, IndexedDB, and ffmpeg.wasm to ensure cross-device functionality.
- Developed an AI-powered document analysis application that generated summaries of large PDF files, reducing research and review time for users.
- Connected to Figma's API to aid in page building automation with a VS Code extension made with Svelte.
- Mentored junior and mid-level developers on Angular, accessibility, and frontend best practices.
- Led client-facing discovery and implementation efforts, owning projects from requirements gathering through deployment.

## Tech Toolbox

- Angular 4-21
- TypeScript/JavaScript
- C#/Java
- Svelte
- Web Accessibility/a11y
- SQL

## Education and Training

**EpicU**  
C# and ASP.NET coding bootcamp

**University of Texas Arlington**  
Certification in ASP.NET
